Have been notified that special events on Crown Land will no longer need to put in a DA. Special events will be managed by the Tourism Office. HWCV to write to Shannon Perry-Hall, Acting Tourism Manager at SCC to ask that as a courtesy the Voice be notified of events on Crown Land in our area.

7. Correspondence Out:

No correspondence out was highlighted.

8. Community engagement project update

Eddie Smith met with Chamber of Commerce. General support for community views. No concrete actions. Suggested that the new General Manger might be looking for a cause to support. Presented the results of Jo Warren's poll of Owen St businesses which found that the majority of businesses did not support the development on the Anglican church site.

Next step is to present to Council Officers, the to Councillors.

9. DA19/1841

HWCV supported the 'calling in' of this DA for 17 units in an R3 zone on Duncan St where previously max 2 storey and 3 townhouses have been built. Council were unanimous to call in the application.

Technically R3 zones allow relatively high density development – community would be shocked if they realised.

LEP was developed in consultation with the community – hard to amend.

Next steps: Council staff will prepare a report and recommendation to Council, Council will votes whether or not to accept the recommendation.

There will be an opportunity to give a deputation at this council meeting.

Keep putting in comments and views.

Focus on facts; not in public interest; not in keeping with that area; Huskisson community doesn't want this scale in R3

11. Callala Bay Community Association request – covered in correspondence

12. Request by Woollamia Boar Ramp and Car park Committee for HWCV representative

Terry will follow up with Carol. Concern that the area is used for drinking and drug use. Rangers and police have been called numerous times.

Voice to write to Council expressing concern and asking that it be addressed. First go to site, call Ranger, then follow up with a letter. (liaise with Terry)

13. General Business

Speed limit between Huskisson and Woollamia

Moved Terry O'Connor / Seconded Eddie Smith that the speed limit between Huskisson and Woollamia should be dropped to 50 kmh. Request review of speed limit to Council Traffic Committee, and they will take to RMS.

Unsafe, particularly around intersection to Frank Lewis Way.

Huskisson Heritage Association – update on sale and development of Anglican Church block

Numerous trees have been removed from the site using the 45 degree rule, even though the developer indicated in the DA that no vegetation would be touched.

The campaign continues, with one member arrested for trespass during the process on one tree removal. The HHA is currently the biggest community group in Huskisson. The re-zoning of the block is coming up which may involve the State government. A meeting of the HHA will be held 17 October, 6.30pm at the Community Centre.

Tree clearing Woollamia Road near Edendale St

Trees have been cut on this site, and soil piled and concern that the water course is being altered. The area is a wetland. Moved Maureen Noonan / Seconded Jo Warren that HWCV enquire with Council regarding that block.

45 degree rule

Concern raised about this rule. Noted that it was discussed at recent Council meeting and they voted to retain it, but rescission motion coming up at next Council meeting. It would be good to have multiple voices to support it at that meeting.

Moved Evan Christen / Seconded Maureen Noonan to write to other CCBs regarding the 45 degree rule, the bad effects it is having and if they agree to lobby Council to change the rule.

Council elections

Noted that it is Important that each community group endorses / puts up 1 very good candidate for each ward in the forthcoming Council elections in 2020.

Triathlon at Woollamia?

Maureen Noonan asked whether or not the Triathlon would still be held at Woollamia. Given DAs are no longer submitted we don't know. She indicated she would start a petition to protest if it was.
